The following are terms of participation in the Machine Translation Evaluation:

- On receiving the evaluation data (*May 10th, 2004*), the registered site will process the entire test set in accordance with the MT-04 Evaluation Plan, and return the system output files to NIST by the end of the evaluation period, *May 14th, 2004*.
- The site agrees to be represented at the Machine Translation Evaluation workshop to be held in the Baltimore/Washington D.C. area on *June 22-23, 2004*, and to openly discuss the system(s) evaluated.
- The site understands that, although the evaluation is open to all wishing to participate, results are only discussed within the group of registered participants and representatives of supporting government agencies.
- The site agrees to not publicly compare its results with the results of other participants. Sites are free to do what they wish with their own results, but may neither redistribute nor publish results from another site without that site's explicit permission.

NIST serves to coordinate the Machine Translation evaluations. These tests are designed for local implementation by each participant. Only their results are returned to NIST for scoring. The reported results are not to be construed, or represented, as endorsement of any participant's system, or as official findings on the part of NIST or the U.S. Government.
